

EXTERIOR FEATURES AND BENEFIT - Mirada

Noble Select	Protected by a three-year warranty, these sidewalls have a high-gloss gelcoat finish to prevent fading. They are also 20% lighter than wood substrate sidewalls, provide more occupant cargo carrying capacity, and offer three times the insulation against extreme climates.
Azdel Composite	Most manufacturers use wood sidewalls that can expand, swell, and eventually mold. We use Azdel. It's impervious to water, won't rot or mold, and, with less than a 1% chance of delaminating, it ensures the long-term integrity of the sidewalls.
Reinforced Lamination	We vacuum bond and pinch roll every sidewall, roof and floor, then perform a pull adhesion test. Most manufacturers just do one process or the other, but by doing both we improve the strength and longevity of the sidewalls
Tread Lite Power Step	The double TREAD LITE power step has lightweight aluminum step treads, automatically extends and retracts quickly and features obstruction-sensing technology that stops deployment if any obstructions are encountered.
Exterior Entertainment System	The optional Exterior Entertainment system comes with a 32" or 40" exterior TV depending on floorplan and DVD player for tailgating and nighttime family movie time!
Elongated Wheelbase	We offer longer wheelbases than other motorhome manufacturers because that means superior weight distribution. The result? Better handling and a smoother ride that results in less driver fatigue.
Sight Rite Dash	Our dashes are angled 20 degrees forward. This increases the line of sight for the driver, and offers the best road visibility on the market
One-Piece Fiberglass Roof	The Mirada is equipped with a ONE PIECE pebble-grain fiberglass laminated roof, which allows better traction while maintaining the coach.
Digital Owner's Manual	Our owner's manuals are easy to access through the Coachmen website or our free app. Supplemented with videos, PowerPoints, and more it's got all you need to know about your coach.

INTERIOR FEATURES AND BENEFIT

Beauflor Flooring	Laminated Beauflor runs throughout the coach. This floor is glued down and is slip, stain and cold cracking resistant. The absence of carpet allows for lower maintenance.
Soft Close Drawer Guides	The locking mechanism on the drawers decrease the chance of drawers flying open while in transit and prevent slamming and damage
Drop Down Bunk Option	The VERY popular drop down bunk is available on most Mirada floor plans. The drop down bunk can hold up to 300 lbs. and can be used for extra sleeping or storage since it does not have to be all the way down in order to use it. The depth and length allows for adults and kids of all sizes to fit
Solar Privacy Shades	The front windshield has a POWERED Solar and Privacy screen and manual ones are installed throughout the entire coach. The night shades blocks out all sunlight and both shades reflect UV rays keeping the Mirada cooler in the summers
Williamsburg Furniture	Upgraded and very fashionable furniture packages are standard in every Mirada. Each sofa is a tri-fold and makes into a queen or king bed depending on the floor plan allowing for additional sleeping.
Solid Surface Counter Tops	LG HI-MACS counters are placed in the galley and dining table. These counters are resistant to mold and bacteria growth. They are also easier to clean and more resistant to heat sensitivity than laminate counter tops.
Chef's Choice Galley	The Galley has a flush sink and stove with solid surface covers allowing for more counter space.
